Thank you letter

Dr. Daniel M. Levine
Director
Children's Help Net Foundation

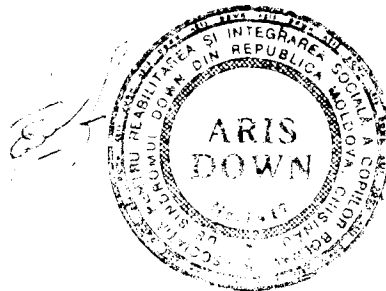

Dear Miss. Neonila,

ARIS-Down Association wants to express its deepest gratitude for the help you provided this past year. It warmed our hearts to know we can depend upon a constant help. Though we are the only specialized organization caring for Down syndrome children we still the basic needs to make the fast progress we would like.

The help your foundation provides makes it so much easier to function. The Food provided by your organization makes it possible to have the children stay for eight hours a day in the center so that we can really pour into them and help them make up for the wasted years when they were not cared for properly. Their scholastics, social skills and socialization are way behind, and the fact that they can attend for eight hours a day makes it easier to help them make real progress Also their parents can be freed for the same amount of time to care for the other children and to do some other needed work.

We want to thank you again for being a friend as the old saying goes: "*A friend in need is a friend indeed!*"

I thank You!

Ecaterina Gaidarji
ARIS-Down. Molodva
