THANK YOU LETTER

On behalf of the parents of the APIS-DOWN association we'd like to thank you for your contribution and support in organization and maintenance of a proper diet for the children cared for by the Day Care Center "Miracle", as well for your help in organizing the holidays spent at the Association.

The children have had two meals a day during the whole year including lunch with hot food., that are diverse and tasty. We also have sweets and fresh fruits in our diet. Due to this diet, the children's health condition has improved significantly (vitamins promoted to increase of the children's immunity), they have become more active taking part in various events and the parents are very happy for them.

Thus, due to your assistance and the fact the children have their meals at a students' diner, they are able to be integrated socially since for different reasons they have been deprived of interacting with the community. The children have become more self-confident and sociable.

Organizing parties with treats for the holidays we are able to make the lives of the children more sweet, to warm their hearts and to bring joy in the hearts of many children attending the Association,

We are very grateful for your charity and attitude towards those who are sadder than we.

Let the magic of the Christmas and the light of the Christ birth warm your hearts and soles opening them to beautiful and noble deeds, let you families be always guided by God. We wish you wonderful success, joy and realization of all your dreams.
