Dr. Daniel M. Levine
Director
Children's Help Net

Dear Dr. Daniel M. Levine:

We'd like to deliver our deepest gratitude and satisfaction about our cooperative relation that has been very successful, especially for us who have benefited from your permanent support. We wouldn't be able to improve the lives of the children placed with the Municipal Special Children's Orphanage without this financial contribution.

Due to your generous help, the children are happy to have a balanced nutrition supplemented with vitamins and minerals which are indispensable for their growing organisms. The small holidays that make the children happy and their lives more pleasant are also possible due to your kind involvement.

Their health has been essentially rehabilitated due to the prophylactic and treatment measures based on the financial contribution poured into the budget of the Children's Orphanage by your generous hand that makes •105,198 lei.

The staff, as well as the children of the Children's Home are also very thankful for the possibility, due to your support, to acquire two natural gas meters valued 37,000 lei for the heating system that is being installed at the Orphanage. The equipment for the heating system valued 164,000 lei is also a precious gift from you. Dr. Levine. The installation of the autonomous heating system will save us from many problems and will allow us to improve the living conditions and keep the children healthy, especially during unfavorable weather conditions. Due to this, it will be always warm and we'll have hot water independent of the central municipal heating system.

There is a HIV infected child in our institution and we have problems in providing him with a special, individual care. Due

to your assistance, we are able to settle this problem and make his life easier and his childhood more animated.

We'll have used another 108,000 lei by the end of this year to complete the installation and utilization of the heating system due to your willingness to help us. We thank you once nor for this gift of yours. It's great to have a good friend, a generous Santa. Claus for our children deprived of the parental love.

Please accept our best wishes for the coming winter holidays. Be healthy, have a long life full of joy to be able to help those who are sad. God bless you.

Respectfully,

Signature

Maria Jechiu

Director

Municipal Special Children's Orphanage
