Dear Dr. Levine,

This is to say thank you for your collaboration with Randox Laboratory LTD in providing a donation of reagents for the needs of the Pleven University Hospital clinical laboratory in June 2004. We highly appreciate your efforts to help us be of better service to our patients.

In view of the financial difficulties experienced by hospitals in Bulgaria during the reform in the health care system, and the needs of the University Hospital, which is also a consulting hospital for four administrative regions, your help is really appreciated and relied upon.

Specially appreciated are the reagents for emergency and routine biochemistry tests – Triglycerides, HDL-cholesterol, Creatinine- kinase, Glucose tests CK-MB, UREA, ASAT, ALAT, GOD-PAP, and of course all the ones that the shipment contained.

Again, thank you for your concern and your help in times difficult for us.

Best regards,

Prof. G. Gorchev, MD, Ph.D., D.Sc.

Rector of Medical University – Pleven,
Vice Director of University Hospital Board
